

SEAN WAS HERE

a discoverable installation for Google Earth

2011

Sean Peuquet

Photographs of residential houses were taken in the Duckpond area of Gainesville, FL. Each photograph was uploaded to the Google Earth database of street level pictures and virtually pinpointed on satellite images of the Duckpond area corresponding to the place where the photograph was taken. Over 180 photographs were taken and organized such that when they appear in Google Earth they spell (using Google Earth photo icons), “SEAn wAS HERE.”
